

VISION2WATCH

WHAT IS IT

The Vision2Watch interactive floor transforms an inconspicuous floor into an interactive media field where the customer plays the principal role. Our system can make from every surface a fun experience. Making passers-by stop and play. This is the perfect moment to get your message across.

HOW IT WORKS

The Vision2Watch interactive floor transforms an inconspicuous floor into an interactive media field where the customer plays the principal role. Our system can make from every surface a fun experience. Making passers-by stop and play. This is the perfect moment to get your message across.

IN BRIEF

- A guaranteed eye-catcher
- Inviting for interaction
- Simple and quick to install at almost any location
- Vision2Watch develops the best software and uses only the best equipment for your project
- Large selection of templates
- Delivered with standard software or custom-made software
- Flexible in content and size
- Low maintenance
- Not only for sale, but also for rent

THE POSSIBILITIES

The interactive floor attracts not only the attention of the 'user', but also from anyone that passes by. Therefore the Yourfloor is suited for places where many people come, such as shopping centers, events, exhibitions or department stores. Thanks to the playful elements the floor is also suitable for children. The interactive floor is easy to install at any location and available in almost any size.
